

WHAT WE DO WELL

Installs

The upfront cost of a new air conditioner can be overwhelming. However, modern units can pay for themselves quickly by lowering your cooling bills and reducing the number of repair calls you have to make per year.

Service

When you want fast repairs at a fair price, call us. We are trained and experienced and can fix any make or model on the market.

Maintenance

If you'd like to minimize the chance of your system breaking down, sign up for a maintenance plan. We'll come to your home, clean, and complete a system check each season which will save money and provide you a health update for your system.

Duct Cleaning

Air duct cleaning is an often overlooked step to keeping your home clean and the indoor air quality high. Dust and debris collect within the HVAC system, but our brush and air cleaning methods combined with the HEPA vacuum prevents potential allergen issues.

Attic Insulation

We offer Blow-in Insulation, Spray Foam Insulation & Insulation removal.

Spray Foam Insulation can cut your energy bill drastically, giving you the gift of long-term savings

EXPLAINING US

Clovair was established by Jim Agnello in 2006. In 2015, his son Tony assumed control and rebranded the company as The Lakeland Air Conditioning Company, which later became Lakeland Air Conditioning.

With a team of around 20 dedicated employees, we strive daily to provide you with a reliable and comfortable experience for all your HVAC requirements.

Our passion for Lakeland drives us to actively engage with the community and continuously seek growth opportunities.

MAINTENANCE PLANS

A Maintenance visit includes :

- Inspect refrigerant levels & pressure
 - Check & adjust thermostat
- Inspect wiring, contacts, capacitors & relays
 - Inspect and clean the evaporator coil
 - Inspect and clean the condenser
 - Inspect the condensate drain
 - Inspect outdoor disconnect
- Inspect the condenser fan motor & blades
 - Inspect compressor at startup
 - Inspect airflow
- When completed you will receive a recommendation for any further maintenance or repair needs of your system and receive a system report card

WE RECOMMEND

We only recommend products and services we would sell to a friend. We are confident that everything listed below will enhance your HVAC system's lifespan and improve your air quality.

KOOL GUARD INTELLIGENT VOLTAGE MONITORING W/ SURGE DTK-KG2

Protects HVAC equipment from harmful under-voltage, over-voltage, and transient voltage surges.

\$500 Installed

EQUIPMENT SURGE PROTECTION DTK-120/240CM

Protects HVAC condensers, pumps, motors, and utility power.

\$350 Installed

AERUS AIR SCRUBBER OZONE FREE

ActivePure® Technology attaches to HVAC ductwork to remove air pollution, VOCs, contaminants, pet dander, odors, and dust. It ensures a cleaner, healthier, and more efficient home or business.

\$1500 Installed

UV LIGHT 1 YEAR BULB

Installing an HVAC UV light eliminates mold, mildew, viruses, bacteria, and odors, improving indoor air quality and HVAC efficiency by naturally cleaning coils and air.

\$450 Installed

FINANCING AVAILABLE

We pride ourselves on providing our customers with the best services possible. This includes offering financial solutions while working with us! Finance repairs as little as \$500 & installs up to \$25,000 for monthly payments that you can handle.

Options Include:

- Short application, quick decision
- APR from 0% to 29.9%
- Terms from 3 to 60 months; up to 6 options per customer

OUR PRIORITY IS CUSTOMER SERVICE

While AC issues are never exciting and typically unexpected, we do our best to make this a comfortable & trusting experience with the guidance of our team hoping to provide service to you and your system for years to come.
